

OPPOSE HB3232 – An Act Protecting Research Animals
Rep. Michelle DuBois (D)
Referred to Joint Committee on Public Health

WHAT THIS BILL DOES:

This bill requires a research institution or product testing facility that intends to euthanize or destroy a dog or cat, to offer this animal to an animal shelter or rescue organization for the purpose of placing/rehoming it.

WHY YOU SHOULD OPPOSE THIS BILL:

This bill is unnecessary, as the research community has been finding homes for post-study animals without laws requiring such for decades. This requirement takes the decision making from the professional caregivers in research institutions who care deeply for these animals and know them best. The bill reads as disallowing private placement of animals, which prevents facilities from doing direct placement and prevents scientists from becoming long term homes for the animals they have worked with and developed an attachment to.

While similar bills have only spoken to placement of animals, this particular bill does further damage by placing a limitation on actual research. Facilities may not conduct research on a dog or cat for longer than 2 years. This is devastating to long-term research that could otherwise potentially lead to cures to deadly diseases.

This and similar bills are much less focused on the care and retirement of post-study animals but more on showcasing these animals as props to misinform the public about their lives in research. The true agenda is to manipulate public opinion and end the search for treatments and cures from the biomedical profession.

In the One Hundred and Ninetieth General Court
(2017-2018)

An Act protecting research animals.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Chapter 140 of the General Laws is hereby amended by inserting after
2 Section 174D, the following new section:-

3 Section 174D1/2. Responsibilities of research institutions; adoption of certain dogs and
4 cats

5 (a) Except as otherwise provided in subsection (b), a research institution or product
6 testing facility that intends to euthanize or destroy a dog or cat for any purpose other than
7 scientific, medical or educational research shall, before euthanizing or destroying the dog or cat,
8 offer the dog or cat to an animal shelter or rescue organization for adoption. A research
9 institution or product testing facility may enter into a collaborative agreement with an animal
10 shelter or rescue organization for the purpose of carrying out the provisions of this subsection.

11 (b) A research institution or product testing facility is not required to offer a dog or cat to
12 an animal shelter or rescue organization pursuant to subsection (a) if the dog or cat: (1)
manifests

13 a behavioral or temperamental defect that poses a risk to the health and safety of the public; (2)
14 manifests symptoms of a disease, injury, congenital or hereditary condition that adversely
15 affects, or is likely to adversely affect, the health of the dog or cat; or (3) is a newborn dog or cat
16 in need of maternal care and has been impounded by the research institution or product testing
17 facility without its mother.

18 (c) A facility that is required to offer dogs and cats for adoption under this section shall
19 owe no duty of care to any animal shelter or rescue organization that accepts the animal or to any
20 person or entity that may adopt such animals, whether through such organizations or through
21 private placement. No assumption of responsibility or liability for injuries, property damage, or
22 other damages or losses shall be incurred by such research facility on account of the adoption or
23 placement of any dog or cat pursuant to the provisions of this act.

24 (d) A research institution or product testing facility shall not conduct research on any dog
25 or cat for a period of more than 2 years.

26 SECTION 2. Section 136A of Chapter 140 of the General Laws is hereby amended by
27 inserting the following:-

28 “Product testing facility”, a facility that is privately owned or funded; or receives public
29 funding, including, but not limited to, any subsidy, grant or tax exemption, either directly or
30 indirectly, through collaboration with an institution of higher education, that is engaged in
31 animal research for scientific, medical, or educational purposes.

32 “Rescue organization”, a nonprofit organization established for the purpose of rescuing
33 animals in need and finding permanent, adoptive homes for such animals.
