

**SUPPORT SB866 – An Act Relative to Dog Training Areas
in the Commonwealth
[Sen. Gobi (D)]**

PROBLEM:

Responsible dog trainers have purchased and developed property for the purpose of training sporting dogs. Urban sprawl has encroached on their land, with new neighbors complaining about the noise involved in dog training.

HISTORY:

Hunting with dogs is a time honored pastime in Massachusetts. Historically, mankind used dogs to help hunt and ensure survival of their families. In the past century, the casual hunter could train his family dog on the abundant grouse in any New England wood lot. Now, loss of habitat from the change in farming practices and creeping urbanization have severely altered wildlife populations and dog training practices. This loss of habitat has been and is being addressed by the people who have purchased and developed land for the training of sporting dogs.

WHAT THIS BILL DOES:

These bills will protect owners of sporting dog training property that were in compliance with applicable noise control laws or ordinances at the time the land was developed from noise complaints by their neighbors.

WHY YOU SHOULD SUPPORT THIS BILL:

1. Land available for training sporting dogs is dwindling due to urban sprawl.
2. Training sporting dogs on land protected for that purpose provides a safe and controlled area for such training.
3. Training sporting dogs is of great assistance in the conservation of game during hunting.
4. Owners of sporting dog training land also make their property available to the public for hunting and blueberry picking
