

**SUPPORT HB1816 – An Act Known as The Animal Rescue Access of Massachusetts
Rep. Tram Nguyen (D)**

Referred to Joint Committee on Municipalities & Regional Government

What This Bill Does:

This bill requires animal control officers and shelters notify any rescue organizations or shelters (that have previously requested to be notified) of any animal that is going to be euthanized. The notification can be written or electronic, must include a detailed description of the animal (including a photo if possible) and must be done no more than 24 hours after the animal has been impounded. There will be a voluntary contribution check-off available on dog license renewals to help support shelters.

Why You Should Support This Bill:

This bill makes sure that all impounded animals (except those that have rabies or are experiencing irremediable physical suffering as certified in a writing by a veterinarian licensed to practice in MA) are given to a shelter or rescue group to be put up for adoption instead of being euthanized. This bill also says that no shelter or animal control officer may deny any owner the right to reclaim their lost pet simply due to the lack of ability to immediately or fully pay fees, fines, or the cost of vaccinations. A reasonable payment plan should be offered to such owner. It is unlikely that any adoptable shelter animals are in danger of being euthanized these days because there is a severe shortage of adoptable pets in Massachusetts. Still, it's best to be sure than none slip through the cracks.
